

The City of Norfolk's Department of Utilities is pleased to have scheduled infrastructure improvements in your area. The project area shown in the figure below will receive new water and sanitary sewer pipes.

Starting Tuesday May 26, work will begin at the intersection of W. Little Creek Road and Diven Street, and will continue westward on W. Little Creek Road to Enfield Avenue. One or two lanes will be blocked, and there will be changing traffic patterns in this area for the next few months.

The City and our contractor will do our best to minimize the unavoidable disruptions with construction. If you have any questions regarding this project, please do not hesitate to contact the City's on-site construction inspector, Mike Gomes. He can be reached by cell phone at 757-390-7535 to respond quickly. You may also contact the Project Manager, Lisa Bass, at 757-664-6398 or [lisa.bass@norfolk.gov](mailto:lisa.bass@norfolk.gov).

The Department of Utilities looks forward to completing this project that will enhance your water and sanitary sewer services for years to come.
